प्रस्तावना

उप-राज्य स्तर पर विश्वसनीय एवं समयबद्ध आँकड़े देशभर में समाजार्थिक परिस्थितियों की विविधता को समझने तथा साक्ष्य-आधारित योजना एवं नीतिगत निर्माण में सहायक होते हैं। राष्ट्रीय एवं राज्य स्तर के संकेतक जहाँ समग्र परिदृश्य प्रस्तुत करते हैं, वहीं जिला-स्तरीय आँकड़े आर्थिक एवं श्रम बाजार की बदलती स्थिति का अधिक सूक्ष्म दृष्टिकोण प्रदान करते हैं।

राष्ट्रीय सांख्यिकी कार्यालय (NSO), सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय द्वारा संचालित आवधिक श्रम बल सर्वेक्षण (PLFS) भारत में श्रम बाजार संबंधी नियमित आँकड़ों का एक महत्त्वपूर्ण स्रोत बनकर उभरा है। वर्ष 2017 में इसके आरंभ से, PLFS के द्वारा अखिल भारतीय तथा राज्य/केंद्रशासित प्रदेश स्तर पर प्रमुख श्रम बाजार संकेतकों के आकलन उपलब्ध कराए जा रहे हैं तथा समय-समय पर उभरती सांख्यिकीय आवश्यकताओं को भी इसमें सम्मिलित किया गया है। जनवरी 2025 से लागू संशोधित प्रतिचयन अभिकल्प ने उप-राज्य स्तर पर आँकड़े तैयार करने की PLFS की क्षमता को और सुदृढ़ किया है, जिसमें जिलों को आधारभूत स्तर के रूप में लिया गया है। वर्तमान प्रकाशन PLFS 2025 पर आधारित जिला-स्तरीय आकलन प्रस्तुत एवं प्रसारित करने की NSO की प्रथम पहल है, जिससे आधिकारिक श्रम बाजार आँकड़ों की उपलब्धता को अधिक सूक्ष्म स्तर तक विस्तारित किया गया है।

प्रस्तुत आकलन नीति-निर्माताओं, राज्य एवं जिला प्रशासन, शोधकर्ताओं, अकादमिक जगत तथा अन्य स्टेकहोल्डर्स के लिए नीति-निर्माण, योजना, अनुश्रवण एवं आगे के विश्लेषणात्मक कार्यों में उपयोगी होंगे। तथापि, उपयोगकर्ताओं को परामर्श दिया जाता है कि वे इन आकलनों की व्याख्या सर्वेक्षण पद्धति, संभव प्रतिचयन-आधारित परिवर्तनशीलता तथा प्रतिदर्श आकार को ध्यान में रखते हुए करें। चूँकि ये आकलन प्रतिदर्श सर्वेक्षण आँकड़ों पर आधारित हैं, अतः इनकी सटीकता विभिन्न जिलों एवं संकेतकों में भिन्न हो सकती है। विश्लेषणात्मक, नीतिगत तथा योजना बनाने के उद्देश्यों के लिए अनुमानों का उपयोग करते समय, जहाँ भी सटीकता के उपाय और सावधानियां बताई गई हैं उनका संदर्भ लिया जा सकता है।

एन एस ओ के घरेलू सर्वेक्षण प्रभाग (HSD) ने सर्वेक्षण पद्धति विकसित की, आँकड़ों का प्रसंस्करण एवं सारणीकरण किया तथा इस रिपोर्ट को तैयार किया। क्षेत्र संकार्य प्रभाग (FOD) ने क्षेत्र कार्य किया, जबकि समन्वय एवं गुणवत्ता नियंत्रण प्रभाग (CQCD) ने विभिन्न सर्वेक्षण गतिविधियों का समन्वय किया तथा निर्धारित गुणवत्ता मानकों का अनुपालन सुनिश्चित किया।

मैं राष्ट्रीय सांख्यिकी आयोग (NSC), NSS सर्वेक्षणों की संचालन समिति तथा NSO के पारिवारिक सर्वेक्षणों पर तकनीकी परामर्श समूह (TAG) के सदस्यों का PLFS के विभिन्न चरणों में उनके मूल्यवान मार्गदर्शन एवं सहयोग के लिए हार्दिक आभार व्यक्त करती हूँ। साथ ही, NSO के विभिन्न प्रभागों के अधिकारियों एवं कर्मचारियों के समर्पित प्रयासों की सराहना करती हूँ, जिन्होंने सर्वेक्षण के सफल संचालन तथा इस रिपोर्ट की तैयारी में योगदान दिया।

गीता

नई दिल्ली
सितम्बर 2026

(गीता सिंह राठौर)
महानिदेशक (एनएसएस)

Preface

Reliable and timely statistics at the sub-State level are essential for understanding the diversity of socio-economic conditions across the country and for supporting evidence-based planning and policy formulation. While national and State-level indicators provide an overall picture, district-level statistics offer a more granular perspective on the changing economic and labour market landscape.

The Periodic Labour Force Survey (PLFS), conducted by the National Statistics Office (NSO), Ministry of Statistics and Programme Implementation, has emerged as an important source of regular statistics on the labour market in India. Since its inception in 2017, PLFS has provided estimates of key labour market indicators at the all-India and State/UT levels and has also incorporated emerging statistical requirements from time to time. The modified sampling design of PLFS, introduced from January 2025, has further strengthened the scope for generating statistics at the sub-State level, with districts forming the basic stratum. The present publication marks the first endeavour of NSO to present district-level estimates based on PLFS 2025, thereby extending the availability of official labour market statistics to a more granular level.

The estimates presented herein are expected to be useful to policymakers, State and district administrations, researchers, academia and other stakeholders for policy formulation, planning, monitoring and further analytical work. Users are, however, advised to interpret the estimates with due regard to the survey methodology, associated sampling variability and sample size. As these estimates are based on sample survey data, their precision may vary across districts and indicators. The accompanying measures of precision and caveats, wherever provided, may be referred to while using the estimates for analytical, policy and planning purposes.

The Household Survey Division (HSD) of NSO developed the survey methodology, undertook data processing and tabulation, and prepared this report. The Field Operations Division (FOD) carried out the fieldwork, while the Coordination and Quality Control Division (CQCD) coordinated various survey activities and ensured adherence to prescribed quality standards.

I express my sincere gratitude to the members of the National Statistical Commission (NSC), the Steering Committee on NSS Surveys and the Technical Advisory Group (TAG) on Household Surveys of NSO for their valuable guidance and support at various stages of the Periodic Labour Force Survey. I also place on record my appreciation of the dedicated efforts of the officers and staff of different divisions of NSO who contributed to the successful conduct of the survey and preparation of this report.

New Delhi
September 2026

(Geeta Singh Rathore)
Director General (National Sample Survey)

01 Background and Context

Since its launch in 2017, the Periodic Labour Force Survey (PLFS) has served as India's primary source of official statistics on labour market. Based on the PLFS conducted during January-December, 2025, two publications, namely the *Annual Report, PLFS, 2025* and *Labour Market Dynamics in Million-plus Cities*, have already been brought out. These publications provide comprehensive insights into the labour market at the national level, state/UT-level and for million-plus cities. Recognising the growing need for more granular information on employment and labour market conditions, the present report provides key labour force indicators for selected districts.

Prior to 2025, the PLFS sampling design considered NSS Regions as the basic stratum and, therefore, was not specifically designed to generate estimates at the district level. With the adoption of the modified sampling design from January 2025, districts have been adopted as the basic stratum for the majority of the geographical area**,** thereby facilitating the generation of district-level estimates. The detailed sampling design of PLFS is provided in the *Annual Report, PLFS, 2025*[1].

Labour markets can vary across districts within the same State, reflecting differences in the economic structure, industrial activity, urbanisation, demographic composition and availability of employment opportunities. State-level averages may therefore mask important variations in labour market outcomes across districts. District-level labour market statistics can help capture these spatial variations and provide more granular evidence for informed planning and policy formulation.

02 Scope of the Bulletin

Estimates of Labour Force Participation Rate (LFPR), Worker Population Ratio (WPR), Unemployment Rate (UR) and persons not in employment, education or training (NEET) have been presented in this report.

[1] https://www.mospi.gov.in/uploads/publications_reports/publications_reports1780040415321_0624fb13-fb47-40bc-b470-7c7e9635c3ef_PLFS_2025_F_REV_29052026.pdf

The report has been broadly structured into two parts. The first part presents a snapshot of key labour force indicators for up to TEN, wherever available, of the most populous districts in each State. The estimates of the indicators are presented following the Usual Status (ps+ss) approach for the combined rural+urban sector. In this part, estimates for LFPR, WPR and UR are presented for persons aged 15 years and above and estimates of NEET are presented for the age group 15-29 years.

The second part, presented as Appendix A, provides estimates for all districts/ NSS Regions covered under PLFS 2025. Here estimates are presented following both Usual Status (ps+ss) and Current Weekly Status (CWS) approaches for LFPR, WPR and UR for the age group 15 years and above, whereas estimates of NEET are presented for the age groups 15-29 years and 15-59 years for rural, urban and rural+urban sectors, with further disaggregation by gender. This section also provides the Relative Standard Error (RSE) of the headline indicators as well as the number of First Stage Units (FSUs), households and persons surveyed. For details on the definition of indicators and measurement approaches, reference may be made to the Annual Report, PLFS, 2025. In the estimation procedure, transgender persons have been subsumed under the 'person' category.

For the UTs of Andaman and Nicobar Islands, Chandigarh, Dadra and Nagar Haveli and Daman and Diu, Ladakh, Lakshadweep and Puducherry, separate district-level estimates have not been presented, as the basic stratum in these UTs has been formed at the NSS region-level, which coincides with the geographical area of the UT.

It may be noted that samples for PLFS 2025 and 2026 (i.e., Panel 5) were drawn in November, 2024, based on the updated sampling frame available at that time. Any subsequent changes in district composition, including bifurcation, merger or renaming of districts, may not be reflected in this report. The estimates presented herein are therefore aligned with the frame as it existed at the time of sample selection.

Reliability of Estimates

The estimates presented in this report are based on the sample FSUs surveyed in the districts (or NSS region) under the overall sample design of the Periodic Labour Force Survey (PLFS). A minimum allocation of one FSU per month was ensured for basic stratum (district) in the lowest size class and the number of FSUs allocated increased gradually with the size class. Owing to this allocation procedure, the effective sample size varies across districts (or NSS region). In some districts, the number of surveyed households is less than 250, indicating a relatively lower reliability of the estimated indicators compared to districts with larger sample sizes. Users may consider the underlying sample size and the associated sampling variability while drawing inferences from the district-level estimates presented in this bulletin.

Estimates with fewer than 250 surveyed households are marked with '#' along the district name. A dash (-) is put instead of an estimate if no sample observation was available in the corresponding category or the estimate is less than 0.05, while an asterisk (*) against an estimate indicates that the estimate is associated with a relatively high RSE (40% or above) and should therefore be interpreted with caution.

State-wise labour market snapshot of selected districts

Andhra Pradesh

State/District	LFPR	WPR	UR	NEET
Andhra Pradesh	**60.9**	**58.3**	**4.2**	**26.6**
District				
1. Visakhapatnam	57.3	53.9	5.8	25.0
2. Prakasam	63.6	60.7	4.6	28.1
3. Sri Satya Sai	70.4	67.3	4.3	29.0
4. Guntur	50.4	47.7	5.4	15.1
5. Palnadu	64.0	62.3	2.7	22.7
6. West Godavari	54.8	53.1	3.1	34.1
7. Ananthapuramu	65.3	62.7	3.9	27.8
8. Sri Potti Sriramulu Nellore	64.0	60.7	5.2	28.9
9. Srikakulam	67.2	62.8	6.5	37.3
10. Tirupathi	53.9	51.7	4.1	24.0

Highlights among the selected district

- Sri Satya Sai recorded the highest LFPR (70.4%) and WPR (67.3%).
- Palnadu recorded the lowest UR (2.7%), while Srikakulam recorded the highest UR (6.5%).
- Guntur recorded the lowest NEET rate (15.1%), whereas Srikakulam recorded the highest (37.3%).
- The LFPR among the selected districts ranged from 50.4% to 70.4%, while WPR ranged from 47.7% to 67.3%.

Assam

State/District	LFPR	WPR	UR	NEET
Assam	**61.9**	**59.6**	**3.7**	**25.8**
District				
1. Barpeta	58.2	56.1	3.6	32.5
2. Nagaon	55.3	52.2	5.6	35.5
3. Cachar	61.2	59.3	3.1	26.0
4. Dhubri	53.4	51.6	3.5	19.3
5. Kamrup	58.2	55.5	4.7	30.7
6. Dibrugarh	74.7	71.8	3.9	16.3
7. Tinsukia	75.9	73.9	2.6	15.7
8. Karimganj	58.2	57.1	1.9	26.9
9. Sonitpur	66.3	63.3	4.5	34.3
10. Kamrup Metropolitan	58.6	55.2	5.8	24.1

Highlights among the selected district

- Tinsukia recorded the highest LFPR (75.9%) and WPR (73.9%).
- Karimganj recorded the lowest UR (1.9%), while Kamrup Metropolitan recorded the highest UR (5.8%).
- Tinsukia recorded the lowest NEET rate (15.7%), whereas Nagaon recorded the highest (35.5%).
- The LFPR among the selected districts ranged from 53.4% to 75.9%, while WPR ranged from 51.6% to 73.9%.

Bihar

State/District	LFPR	WPR	UR	NEET
Bihar	**49.3**	**47.4**	**3.8**	**32.1**
District				
1. Patna	45.2	40.4	10.6	30.5
2. Purba Champaran	47.0	45.6	2.9	38.1
3. Muzaffarpur	45.5	44.0	3.3	34.8
4. Samastipur	48.4	46.7	3.5	33.0
5. Madhubani	44.3	41.9	5.4	36.7
6. Pashchim Champaran	48.4	47.6	1.7	43.6
7. Gaya	46.2	43.8	5.3	32.9
8. Darbhanga	39.2	37.3	*	32.2
9. Saran	43.6	41.6	4.5	40.0
10. Purnia	60.3	59.3	1.6	32.0

Highlights among the selected district

- Purnia recorded the highest LFPR (60.3%) and WPR (59.3%).
- Purnia recorded the lowest UR (1.6%), while Patna recorded the highest UR (10.6%).
- Patna recorded the lowest NEET rate (30.5%), whereas Pashchim Champaran recorded the highest (43.6%).
- The LFPR among the selected districts ranged from 39.2% to 60.3%, while WPR ranged from 37.3% to 59.3%.

Chhattisgarh

State/District	LFPR	WPR	UR	NEET
Chhattisgarh	**71.6**	**70.0**	**2.3**	**17.4**
District				
1. Raipur	61.5	59.4	3.4	28.5
2. Durg	64.5	62.3	3.4	24.3
3. Bilaspur	61.3	59.1	3.5	21.3
4. Balodabazar-Bhatapara	71.9	70.5	2.0	19.1
5. Raigarh	70.3	69.7	*	17.1
6. Mahasamund	71.4	70.4	1.4	10.0
7. Janjgir-Champa	66.0	63.2	*	25.2
8. Korba	64.3	61.3	4.8	21.4
9. Surguja	77.4	75.9	*	14.1
10. Rajnandgaon	77.4	76.5	1.2	9.8

Highlights among the selected district

- Surguja and Rajnandgaon recorded the highest LFPR (77.4%) and Rajnandgaon recorded the highest WPR (76.5%).
- Rajnandgaon recorded the lowest UR (1.2%), while Korba recorded the highest UR (4.8%).
- Rajnandgaon recorded the lowest NEET rate (9.8%), whereas Raipur recorded the highest (28.5%).
- The LFPR among the selected districts ranged from 61.3% to 77.4%, while WPR ranged from 59.1% to 76.5%.

Delhi

State/District	LFPR	WPR	UR	NEET
Delhi	**44.2**	**41.6**	**5.9**	**24.7**
District				
1. North West Delhi	44.4	41.2	7.4	25.7
2. West Delhi	42.3	39.6	6.3	24.0
3. North East Delhi	42.6	39.8	6.4	22.3
4. South Delhi	41.4	39.8	3.8	25.3
5. East Delhi	46.4	42.5	8.3	23.0
6. North Delhi	45.7	42.6	6.8	44.3
7. South West Delhi	46.7	45.2	3.2	12.3
8. Central Delhi#	44.3	42.7	*	33.2

Highlights among the selected district

- South West Delhi recorded the highest LFPR (46.7%) and WPR (45.2%).
- South West Delhi recorded the lowest UR (3.2%), while East Delhi recorded the highest UR (8.3%).
- South West Delhi recorded the lowest NEET rate (12.3%), whereas North Delhi recorded the highest (44.3%).
- The LFPR among the selected districts ranged from 41.4% to 46.7%, while WPR ranged from 39.6% to 45.2%.

Goa

State/District	LFPR	WPR	UR	NEET
Goa	**51.2**	**46.9**	**8.3**	**24.0**
District				
1. North Goa	50.1	46.7	6.8	23.1
2. South Goa	52.5	47.3	10.0	24.8

Highlights among the selected district

- South Goa recorded the highest LFPR (52.5%) and WPR (47.3%).
- North Goa recorded the lowest UR (6.8%), while South Goa recorded the highest UR (10.0%).
- North Goa recorded the lowest NEET rate (23.1%), whereas South Goa recorded the highest (24.8%).
- The LFPR among the selected districts ranged from 50.1% to 52.5%, while WPR ranged from 46.7% to 47.3%.

Gujarat

State/District	LFPR	WPR	UR	NEET
Gujarat	**65.2**	**64.6**	**0.9**	**19.7**
District				
1. Ahmedabad	55.6	55.0	1.1	18.9
2. Surat	68.6	67.8	1.2	17.2
3. Banas Kantha	67.4	66.6	1.2	19.6
4. Vadodara	63.2	62.2	1.5	18.1
5. Anand	66.9	66.3	0.9	26.6
6. Rajkot	53.5	53.3	*	22.1
7. Bhavnagar	59.5	58.9	1.1	26.3
8. Mahesana	62.1	61.1	1.6	19.8
9. Kheda	71.3	70.6	*	19.4
10. Valsad	71.2	70.4	*	18.9

Highlights among the selected district

- Kheda recorded the highest LFPR (71.3%) and WPR (70.6%).
- Anand recorded the lowest UR (0.9%), while Mahesana recorded the highest UR (1.6%).
- Surat recorded the lowest NEET rate (17.2%), whereas Anand recorded the highest (26.6%).
- The LFPR among the selected districts ranged from 53.5% to 71.3%, while WPR ranged from 53.3% to 70.6%.

Haryana

State/District	LFPR	WPR	UR	NEET
Haryana	**50.4**	**48.1**	**4.5**	**27.2**
District				
1. Gurugram	55.4	53.9	2.8	21.8
2. Faridabad	46.3	43.9	5.2	27.5
3. Sonipat	50.5	47.9	5.0	22.3
4. Hisar	53.0	50.7	4.2	25.3
5. Karnal	52.5	51.1	2.6	20.4
6. Panipat	54.8	52.4	4.3	29.6
7. Sirsa	61.9	60.8	1.8	36.3
8. Jind	55.9	54.0	3.4	28.5
9. Yamunanagar	42.1	39.0	7.4	29.9
10. Palwal	48.6	46.0	5.3	35.0

Highlights among the selected district

- Sirsa recorded the highest LFPR (61.9%) and WPR (60.8%).
- Sirsa recorded the lowest UR (1.8%), while Yamunanagar recorded the highest UR (7.4%).
- Karnal recorded the lowest NEET rate (20.4%), whereas Sirsa recorded the highest (36.3%).
- The LFPR among the selected districts ranged from 42.1% to 61.9%, while WPR ranged from 39.0% to 60.8%.

Himachal Pradesh

State/District	LFPR	WPR	UR	NEET
Himachal Pradesh	**73.2**	**69.9**	**4.5**	**20.5**
District				
1. Kangra	68.7	64.3	6.5	31.7
2. Mandi	71.7	71.2	0.8	15.4
3. Shimla	70.0	65.1	*	20.5
4. Solan	70.8	64.5	9.0	39.0
5. Sirmaur	70.8	64.3	9.2	23.3
6. Una	78.2	77.0	1.4	14.3
7. Chamba	77.1	74.6	3.2	7.7
8. Kullu	76.2	74.1	*	17.9
9. Lahul & Spiti, Bilaspur, Kinnaur	81.2	79.6	*	4.8
10. Hamirpur	83.5	82.5	1.2	9.3

Highlights among the selected district

- Hamirpur recorded the highest LFPR (83.5%) and WPR (82.5%).
- Mandi recorded the lowest UR (0.8%), while Sirmaur recorded the highest UR (9.2%).
- Stratum consisting of Lahul & Spiti, Bilaspur and Kinnaur districts recorded the lowest NEET rate (4.8%), whereas Solan recorded the highest (39.0%).
- The LFPR among the selected districts ranged from 68.7% to 83.5%, while WPR ranged from 64.3% to 82.5%.

Jammu and Kashmir

State/District	LFPR	WPR	UR	NEET
Jammu and Kashmir	**64.9**	**61.7**	**4.9**	**16.9**
District				
1. Jammu	56.7	52.0	8.3	27.9
2. Baramulla	62.2	61.0	1.9	12.7
3. Anantnag	61.8	58.5	5.3	13.9
4. Kupwara	60.8	56.8	6.7	15.8
5. Budgam	76.2	74.6	2.1	9.9
6. Srinagar	54.1	48.1	11.1	14.3
7. Rajouri	67.9	65.9	3.0	15.4
8. Pulwama	66.8	63.4	5.1	16.4
9. Udhampur	77.9	74.9	3.8	21.2
10. Kathua	57.1	53.8	5.9	28.5

Highlights among the selected district

- Udhampur recorded the highest LFPR (77.9%) and WPR (74.9%).
- Baramulla recorded the lowest UR (1.9%), while Srinagar recorded the highest UR (11.1%).
- Budgam recorded the lowest NEET rate (9.9%), whereas Kathua recorded the highest (28.5%).
- The LFPR among the selected districts ranged from 54.1% to 77.9%, while WPR ranged from 48.1% to 74.9%.

Jharkhand

State/District	LFPR	WPR	UR	NEET
Jharkhand	**59.8**	**58.2**	**2.7**	**21.0**
District				
1. Ranchi	55.6	54.1	2.7	16.5
2. Dhanbad	50.8	46.7	8.0	32.0
3. Giridih	61.8	60.2	2.5	22.2
4. Palamu	64.1	63.4	1.1	21.2
5. Purbi Singhbhum	51.2	49.0	4.3	28.3
6. Deoghar	51.6	51.4	*	32.4
7. Bokaro	54.3	49.6	8.6	30.0
8. Hazaribagh	64.8	62.4	3.7	19.3
9. Pashchimi Singhbhum	68.3	67.1	*	10.4
10. Garhwa	65.7	65.5	*	14.9

Highlights among the selected district

- Pashchimi Singhbhum recorded the highest LFPR (68.3%) and WPR (67.1%).
- Palamu recorded the lowest UR (1.1%), while Bokaro recorded the highest UR (8.6%).
- Pashchimi Singhbhum recorded the lowest NEET rate (10.4%), whereas Deoghar recorded the highest (32.4%).
- The LFPR among the selected districts ranged from 50.8% to 68.3%, while WPR ranged from 46.7% to 67.1%.

Karnataka

State/District	LFPR	WPR	UR	NEET
Karnataka	**59.4**	**58.0**	**2.3**	**20.8**
District				
1. Bengaluru (Urban)	56.8	55.3	2.5	15.0
2. Belagavi	62.0	61.0	1.5	28.5
3. Mysuru	65.2	64.3	*	22.5
4. Kalaburagi	49.1	44.2	10.0	31.8
5. Tumakuru	59.5	58.5	1.6	15.6
6. Dakshina Kannada	55.9	54.3	3.0	16.6
7. Bijapur	60.1	58.9	2.0	25.3
8. Bagalkote	60.1	58.7	2.3	26.0
9. Hassan	59.3	57.7	2.8	25.4
10. Dharwad	53.8	51.9	3.4	23.5

Highlights among the selected district

- Mysuru recorded the highest LFPR (65.2%) and WPR (64.3%).
- Belagavi recorded the lowest UR (1.5%), while Kalaburagi recorded the highest UR (10.0%).
- Bengaluru (Urban) recorded the lowest NEET rate (15.0%), whereas Kalaburagi recorded the highest (31.8%).
- The LFPR among the selected districts ranged from 49.1% to 65.2%, while WPR ranged from 44.2% to 64.3%.

Keralam

State/District	LFPR	WPR	UR	NEET
Keralam	**57.4**	**54.9**	**4.4**	**21.5**
District				
1. Malappuram	47.2	44.0	6.8	32.2
2. Ernakulam	58.6	57.1	2.6	9.6
3. Thiruvananthapuram	64.4	63.2	1.9	21.3
4. Kozhikode	56.6	53.0	6.3	19.3
5. Thrissur	59.1	56.9	3.8	17.8
6. Palakkad	54.5	49.8	8.6	23.8

9. Howrah	49.2	47.9	2.5	34.5
10. Kolkata	55.4	54.3	1.9	21.9

Highlights among the selected district

- Purba Bardhaman recorded the highest LFPR (63.0%) and WPR (60.7%).
- South Twenty-Four Parganas recorded the lowest UR (0.9%), while Nadia recorded the highest UR (5.4%).
- Kolkata recorded the lowest NEET rate (21.9%), whereas Paschim Medinipur recorded the highest (38.2%).
- The LFPR among the selected districts ranged from 49.2% to 63.0%, while WPR ranged from 47.9% to 60.7%.

Arunachal Pradesh

State/District	LFPR	WPR	UR	NEET
Arunachal Pradesh	**71.3**	**66.6**	**6.6**	**22.9**
District				
1. Papum Pare	67.1	56.3	16.1	28.5
2. All districts except Papum Pare	71.9	68.0	5.4	22.2

Highlights among the selected district

- Papum Pare recorded the lower LFPR (67.1%) and WPR (56.3%) than rest of the state (71.9% and 68.0%).
- Papum Pare recorded higher UR (16.1%) and NEET rate (28.5%) than rest of the state (5.4% and 22.2%).

Manipur

State/District	LFPR	WPR	UR	NEET
Manipur	**63.1**	**59.8**	**5.2**	**14.3**
District				
1. Imphal West	64.8	61.6	4.8	11.4
2. Imphal East	65.7	60.4	*	20.6
3. Senapati, Tamenglong, Churachandpur, Ukhrul, Chandel, Kangpokpi, Tengnoupal	57.3	53.9	6.0	14.7
4. Bishnupur, Thoubal, Jiribam, Kakching	70.6	68.6	2.8	12.9

Highlights among the selected district

- Stratum consisting of Bishnupur, Thoubal, Jiribam and Kakching districts recorded the highest LFPR (70.6%) and WPR (68.6%).
- Stratum consisting of Bishnupur, Thoubal, Jiribam and Kakching districts recorded the lowest UR (2.8%), while stratum consisting of Senapati, Tamenglong, Churachandpur, Ukhrul, Chandel, Kangpokpi and Tengnoupal districts recorded the highest UR (6.0%).
- Imphal West recorded the lowest NEET rate (11.4%), whereas Imphal East recorded the highest (20.6%).
- The LFPR among the selected districts ranged from 57.3% to 70.6%, while WPR ranged from 53.9% to 68.6%.

Meghalaya

State/District	LFPR	WPR	UR	NEET
Meghalaya	**72.3**	**68.9**	**4.8**	**18.2**
District				
1. East Khasi Hills	66.6	62.9	5.5	17.1
2. All districts except East Khasi Hills	74.4	71.0	4.5	18.6

Highlights among the selected district

- East Khasi Hills recorded the lower LFPR (66.6%) and WPR (62.9%) than rest of the state (74.4% and 71.0%).
- East Khasi Hills recorded higher UR (5.5%) but relatively lower NEET rate (17.1%) than rest of the state (4.5% and 18.6%).

Nagaland

State/District	LFPR	WPR	UR	NEET
Nagaland	**72.1**	**67.3**	**6.7**	**21.5**
District				
1. Kohima	67.5	57.4	14.9	17.4
2. All districts except Kohima	72.9	69.1	5.3	22.7

Highlights among the selected district

- Kohima recorded the lower LFPR (67.5%) and WPR (57.4%) than rest of the state (72.9% and 69.1%).
- Kohima recorded higher UR (14.9%) but relatively lower NEET rate (17.4%) than rest of the state (5.3% and 22.7%).

Sikkim

State/District	LFPR	WPR	UR	NEET
Sikkim	**74.7**	**72.3**	**3.2**	**8.4**
District				
1. Gangtok	68.7	66.4	3.3	6.7
2. Mangan, Soreng, Namchi, Pakyong, Gyalshing	77.8	75.4	3.2	9.7

Highlights among the selected district

- Gangtok recorded the lower LFPR (68.7%) and WPR (66.4%) than rest of the state (77.8% and 75.4%).
- Gangtok recorded relatively higher UR (3.3%) but relatively lower NEET rate (6.7%) than rest of the state (3.2% and 9.7%).

Tripura

State/District	LFPR	WPR	UR	NEET
Tripura	**62.1**	**60.4**	**2.7**	**28.1**
District				
1. West Tripura	53.4	51.2	4.2	25.5
2. All districts except West Tripura	64.6	63.1	2.3	28.9

Highlights among the selected district

- West Tripura recorded the lower LFPR (53.4%) and WPR (51.2%) than rest of the state (64.6% and 63.1%).
- West Tripura recorded relatively higher UR (4.2%) but relatively lower NEET rate (25.5%) than rest of the state (2.3% and 28.9%).

Appendix A

All District/ basic stratum level estimate of LFPR, WPR, UR and NEET along with Relative Standard Error (RSE) of LFPR, WPR, UR
